

Oil higher vocational education combination of engineering materials: chemical plant operation and control(Chinese Edition)

Paperback. Pub Date: 2011. Pages: 206
Language: Chinese in Publisher: Petroleum Industry Press Petroleum Vocational Education Engineering combined textbooks: chemical plant operation and control the common petrochemical plant operation and control process. Mainly includes: the reaction principle of the synthesis gas production unit. the hydrocarbon pyrolysis apparatus. aromatics conversion means. the methanol production plant. the acetic acid production apparatus. ethyl production apparatus. the operating conditions to select. process commentary and major device structure. Each device are designed learning tasks. close contact with the chemical production practices introduced by theoretical knowledge. experience in imparting knowledge. task training and expand. practice and thinking. strengthen understanding and skills to enhance chemical plant operation and control. Combini...
