

Dancing with the Elephant of Joy and other Love Stories PT1

This, my journey, started many years ago in my native country. The spirit of the Elephant came to me as I was in a dream. I should not be the one to go on and on with my boastful talk about my pilgrimage like some village drinker. But, this pilgrimage was my reason for my present adventure to your country. It is a long, long story as to how the Elephant of Joy has cast me into this journey. As a humble man, who am I to question the whys and whereas of how I come to write this tale of my journey. But, one day, I set in the inner courtyard of the holy shine. I regret to say, that I was not to be a very successful pilgrim, as I soon fell into sleep. It was one of those Golly, Gee Wheeze . . . Am I really dreaming type of serious dreams. In this serious dream, I see the Elephant of Joy. He does a very strange but, I am sure, a quite holy dance that he calls the Dance of Joy. I am very much to be amazed. Never in my short years had I ever seen such a dance . . . not even in Delhi, when my good uncle blessed me with a visit to a naughty dance hall. The slights that my eyes witness made me feel that I now was ready to witness anything. But, my bold pride had not been able to prepare me for the sight of the holy elephant doing the Dance of Joy. At the time, I must say that I did not know it to be the Dance of Joy. Nor did I have the vision to see the real meanings that the Holy Elephant had tried to teach me. It may have been that of my stubborn pride that brings this vision to me or as my dear, respectful father says too much coconut cream bananas for lunch. Whichever, the Elephant of Joy has enlightened me to the secrets of the universe and the secret is not as many believe to be broccoli. The Elephant has explained to me that this was a mistaken thought because of an error in translation from Sanskrit. This made me to be very angered as I had just, recently, having purchased that best seller, a paperback book: The hundred pathways to Nirvana

through Cooked Broccoli Recipe Book ...second edition. In my vision, the Holy Elephant of Joy sings out a mournful tune of demon possessed tales. I am still to be haunted by this monstrous tune. Sometimes, late in my dreams, I see an empty land, barren of life and village and in the background I shake as I hear the Elephant sing: Going to the Montana soon . . . Gonna be a dental floss tycoon. For many of the past years, I have pondered finding meaning in the Elephants song. Never, in my days in the secondary school in my rural village had I heard such words. In my thoughts, the Elephant must talk to me of that barren, cold land. This must be a place somewhere in this great world. Later, in my studies at a government library; I discovered in a richly-pictured magazine of the world, the whole enlightenment that I had not reached in meditation. The respectful librarian said to me that this wonderful thing was an American magazine called National Geographic. Although, some of the pages made me to be blushing and made me of the mind that such books should not be viewed by the eyes of the young and innocent. Some pages make very lustful thoughts come to trouble our enlightenment. The magazine told of the land that the Holy Elephant had given to me in vision. Having not been enlightened I now knew that the elephant was telling me to journey from my home village and settle in this barren land. In this land, I would become a rich man by raising dental floss and helping fight tooth decay.
