

The Alpha Rap: Read In Kids

The Alpha Rap was written because many kids like the beat and flow of this literary genre and they don't have to be a Whitney Houston type singer to rap. Although some rap lyrics are discouraging, rap can instruct a constructive power and magnify the perception of children. Many attach a negative label to rap as derogative lyrics, but I yearned to demonstrate that a clean and clear teaching method can be successful through rapping. The Alpha Rap delivers information to heighten knowledge of the phonetic sounds of the alphabets to children by means of rapping. This book by the way of rapping creates a deeper understanding for individuals in learning the alphabets sounds. The Alpha Rap is a learning tool to encourage children in learning how to read by teaching alphabets sounds through rapping and visualizations.
